## AGRONOMY

Golf Course Superintendent: Kevin Malloy

PGA TOUR Agronomist: Mark Johnson

TPC Colorado has emerged from winter dormancy in good condition and is well-positioned for the event. The T-1 bentgrass greens are densely covered and are expected to provide firm, true putting surfaces. The tees, approaches, and fairways are in good condition, and with good weather advance and tournament weeks, will also provide firm playing conditions. All closely mown areas will be maintained similar to last year. The only change is the widening of #4 fairway.

#### Quick Facts:

- The greenspeed will be in the range of 11.0 feet.
- The tees and fairways and approaches will be mowed at 0.400 inch.
- The intermediate rough will be mowed at 1.25 inches, and the primary rough will be maintained at 3.0 inches.
