Agronomy

Golf Course Superintendent: Russ Apple

PGA TOUR Agronomist: PJ Ringenberger

The Pete Dye Course at French Lick Resort opened for play in April 2009 and boasts bentgrass greens, tees, and fairways with mostly bluegrass rough. It is situated at the top of a hill and has very few trees which allows for constant breezes and improved summer plant health. The golf course is in exceptional shape. The A1/A4 bentgrass greens are in good condition. All tees, fairways, and approaches also are in great shape. Given course design and elevated summer play levels, divots will be more prevalent in collection areas. Staff will work diligently to minimize the impact ahead of the championship. Rough is very consistent and is expected to provide good lies throughout. The 108 bunkers of varying shapes and sizes are in good shape and drain well. There are a few waste bunkers that will be marked accordingly.

Quick Facts:

- The target greenspeed will be in the range of 11.5 to 12 feet.
- The fairways will be mowed daily at 0.375 inch.
- The tees and approaches will be mowed at 0.275 inch.
- There is no intermediate rough, and the primary rough will be maintained at 2 inches during advance week.
