AGRONOMY

Golf Course Superintendent: Andy Mallick

PGA TOUR Agronomist: Tim Connolly, CGCS

Metedeconk National Golf Club is a 27-hole layout situated on 600 acres in the New Jersey wilderness designed by Robert Trent Jones Sr. and Roger Rulewich. The club has been working on a master plan with Ray Hearn since 2019. Greens are a blend of 007/A1/A4 creeping bentgrass and will be in good condition for the tournament. Firmness will largely be dependent on weather conditions during tournament week. Tree-lined tees and fairways drain well and are a mix of PennTrio creeping bentgrass and Poa annua. The rough is a mix of cool-season grasses that can be formidable if summer rains affect central New Jersey. Many holes are framed with fine fescue naturalized areas that will provide a nice color contrast throughout the summer. There have been no major modifications on the two tournament nines since last year's tournament.

Quick Facts:

- The target greenspeed will be 12.0 – 12.5'.
- The tees, fairways and approaches will be mowed at 0.400 inch.
- The intermediate rough will be mowed at 1.5 inches, and the primary rough will be maintained at 3 inches.
