NEED TO KNOW

- AVERAGE STROKE TIME (AST)** is being recorded each week. At the conclusion of a tournament a player's average stroke time (AST) is compared against the field average. For a given tournament, if a player has an average stroke time of 7.0 seconds or more above the field average, he has recorded an average stroke time (AST) infraction and will be notified via email on Monday or Tuesday following the tournament by the Competitions Department via email with additional details regarding the infraction. AST infractions are accumulated during the season before monetary fines are applied. Players can track their progress via the Player Links App. Instructional information to find their AST on the Links app can be found in the Bluesheet.

- **PLAYER & CADDIE REGISTRATION** must be completed before practice or play. Registration will be located in the clubhouse near the main entrance (hours listed above).
- **PRACTICE ROUNDS** beginning on hole #10 must yield in all instances to players making the turn and must not delay practice rounds at any time. Abuse of the Practice Area Policy may result in disciplinary action.

Agronomy:

Golf Course Superintendent: Jim Nedrow

PGA TOUR Agronomist: Blake Meentemeyer

The Club at Indian Creek is well-positioned for the upcoming Pinnacle Bank Championship. Given the above-average spring rainfall in May, the cool-season grass varieties are very healthy heading into the summer heat. The T1 creeping bent grass greens have excellent turfgrass density and texture. The strong plant health characteristics are directly related to the agronomic programs which include regular sand topdressing and routine venting. The perennial ryegrass tees, fairways, and approaches all have excellent density. The rough height and thickness will be largely dependent on summer temperatures and the timeliness of summer rainfall.

Quick Facts:

- The target green speed will be 11.5 – 12.0’.
- The tees, fairways, and approaches will be mowed at 0.475 inch.
- The intermediate rough will be mowed at 1.5 inches, and the primary rough will be maintained at 3.5 inches, weather dependent.
