OUT OF POSITION:

First Group: At any time during the round they exceed the allotted time to play as detailed on the Pace Chart.

Subsequent Groups: At any time during the round they; (a) exceed the allotted time to play and; (b) reach a par-3 hole that is open and free of play, reach a par-4 hole and have not played a stroke from the teeing ground before the hole is open and free of play, or reach a par-5 hole and all players in the group have not played a stroke from the teeing ground before the hole is open and free of play.

NOTE: The Committee reserves the right to time a group when the Committee considers it necessary. Further, if a player is determined by the Committee to be unreasonably slow, they may be timed individually at the Committee's discretion, regardless of whether their group is out of position.

OBSERVATION LIST:

Any player with an average of 45 seconds or more per stroke over a 10-tournament rolling period in the current and prior seasons will be placed on the Observation List. During competition rounds, the Rules Committee will monitor players on the Observation List throughout their round. Players on the Observation List must play each stroke throughout the round in under 60 seconds, in the absence of a valid reason for taking longer.

If observed by an Official to exceed 60 seconds without a valid reason, that player will be timed on an individual basis as soon as he can be notified. If the player does not exceed the applicable time to play a stroke within two holes, timing will cease.

EXCESSIVE SHOT TIME:

If any player in the field is observed by a Rules Official to take more than 120 seconds on a shot in the absence of good reason for doing so, he will be given an Excessive Shot Time. Any player who receives two Excessive Shot Times during a tournament will be placed on the Observation List for subsequent rounds and be subject to a fine. If an Excessive Shot Time is observed by an Official, the Official will notify the player as soon as practicable.

TIMING POLICY:

When the Rules Committee determines that a group is starting to fall behind, or is just out of position, the group (or certain players within the group) will receive an official warning. Such warnings will be given as soon as possible and given only once during a round. In some circumstances, the Rules Committee may commence timing without having given such a warning, including when a group has already fallen significantly behind and/or is affecting other groups. Warnings given to players in the lead groups will not count towards their cumulative warnings for the season.

Once a group (or certain players within the group) has been warned, the Rules Committee (if available to do so) will monitor the pace of individual players in the group to determine if any players should be timed individually, as opposed to the entire group, in the case the group does not regain its position on the course.

When the Rules Committee determines that a group or an individual out of
