Welcome

to the World Wide Technology Championship in gorgeous Cabo San Lucas! This tournament is the premier professional golf event hosted in Mexico each year and a favorite stop for the world's top PGA TOUR players and caddies thanks to the world-class competition and luxurious hospitality.

We are incredibly proud to support this event and community as we continue the tradition of making a positive impact.

For over 30 years, World Wide Technology has cultivated a culture of grit and determination to drive transformational outcomes all over the world. Those same values — grit and determination — will be key as you pursue success at the Tiger Woods-designed El Cardonal, a golf course inspired by the classic Golden Age course of the west coast that Tiger played growing up.

Best of luck as you compete this week and look to close out the 2023 PGA TOUR season strong!

Swing easy and have a great tournament!
